

STARTING 19TH SEPT M.A.S.A

Minds Applying Stem Activities

**We need young scientists,
engineers & technologists to help
us put teddy in space**

In summer 2017 we are planning to send teddy to space launched from Maud in a balloon. We will be filming teddy as it travels up to space and then all the sights it sees. Teddy will arrive back to earth on his own parachute. We need the help of enthusiastic youngsters 5 -18 years old who can help us achieve our goal. There is a role for everyone and that includes parents.

What it takes

Enthusiasm

Creativity

Willingness to try new things

Everyone will be involved

Old Mart Community Centre,
Deer Road, Maud, AB42 4EG

Tel: 01771 613962

Email:

Adrian.manson@me.com
